Site A home and its property are inextricably linked in a marriage that can be as successful as it can be fruitless.

Architects recognize the importance of this relationship and make site planning the first order of business when approaching the design of a new home or renovation.

is an international collection of essays by leading architects, artists and theorists of locality and space.

Together these essays build to reflect not only what it might mean to 'speak architecturally' but also the innate relations between the artist's and architect's work.
