OECD iLibrary | Energy Policies of IEA Countries

Since 2016, the International Energy Agency's (IEA) in-depth country policy reviews focus on key energy security challenges in fast-changing global energy markets as well as on the transition to clean-energy systems.

Energy Policies of IEA Countries: Ireland 2007 Review

Due to rapidly increasing demand, Ireland has become much more dependent on international energy markets than it was in the past. For Irish energy policy, 2007 is a watershed year. It marks the end of the transition in market liberalisation with the introduction of a unified national electricity market. In addition, the publication of a new energy policy should help to ensure future security of supply and bring environmental improvements of energy use.
