[Ethics of HVTN Trials - HIV Vaccine Trials Network](#)
Ethics review of all studies by the appropriate regulatory agencies and Ethics Committees in every country where a study will be done. Incorporating the principles of autonomy, beneficence and justice into the design and conduct of all HVTN studies and all Network policies. Ethical considerations in international HIV vaccine trials ...

In September, 1997, the Joint United Nations Programme on HIV/AIDS (UNAIDS) embarked on a process of international consultation; its purpose was further to define the important ethical issues and to formulate guidance that might facilitate the ethical design and conduct of HIV vaccine trials in international contexts. This paper summarises the major outcomes of the UNAIDS consultative process.

[Ethics, human rights and HIV vaccine trials in low-income ...](#)

In this study, two vignettes are presented to illustrate two core issues in conducting phase III HIV vaccine trials in low-income countries—namely, (1) from the perspective of participants, the extent to which understanding is a prerequisite for consenting to participate in a trial, and (2) from the perspective of trial investigators, whether it is appropriate to persuade eligible people to

[Ethical Issues and Vaccines | History of Vaccines](#)

Ethical discussions are a key component of HIV vaccine research and development because HIV vaccines pose numerous unique ethical challenges. For example, AIDS stigma may put vaccine trial participants at psychological risk if they encounter discrimination. In addition, researchers have to figure out how to provide appropriate and adequate medical care and protection from stigma for **ETHICAL ISSUES IN HIV VACCINE TRIALS - Home - Springer**

is about the ethical issues facing those who are struggling to control, with a vaccine, a pandemic that gives every impression of being already out of control.

[Ethical Dimensions of HIV/AIDS](#)
