**Human-Animal Studies - Animals and Society Institute**

Human-Animal Studies (HAS) is a rapidly growing interdisciplinary field that examines the complex and multidimensional relationships between humans and other animals. HAS comprises work in several disciplines in the social sciences (sociology, anthropology, psychology, political science) the humanities (history, literary criticism, philosophy, geography), and the natural sciences (ethology

**Animals and Society: An Introduction to Human-animal ...**

Considering that much of human society is structured through its interaction with non-human animals, and since human society relies heavily on the exploitation of animals to serve human needs, human--animal studies has become a rapidly expanding field of research, featuring a number of distinct positions, perspectives, and theories that require

**Animals and Society: An Introduction to Human-Animal ...**

This book was a good broad overview of the main issues of human-animal studies, very basic and for someone unfamiliar with the field. However, the writing and especially the editing was terrible, which for me took away some credibility.
