Innovation - Wikipedia

Innovation can be simply defined as a "new idea, creative thoughts, new imaginations in form of device or method". However, innovation is often also viewed as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products.

Innovation | Definition of Innovation by Merriam-Webster

What is the difference between innovation and invention? The words innovation and invention overlap semantically but are really quite distinct. Invention can refer to a type of musical composition, a falsehood, a discovery, or any product of the imagination.

Diffusion of innovations - Wikipedia

Diffusion of innovations is a theory that seeks to explain how, why, and at what rate new ideas and technology spread. Everett Rogers, a professor of communication studies, popularized the theory in his book Diffusion of Innovations; the book was first published in 1962, and is now in its fifth edition (2003). Rogers argues that diffusion is
