I have had my Macbook Pro for 3 years and and I can honestly say that learning my way around this amazing computer would have been faster and easier if I had this book as a resource at the beginning. This book covers it all from opening to closing and in a clear, concise, very well illustrated way.I recently upgraded my software from Tiger to Snow Leopard and this book even helped with this

Got my new iMac 27" and MacBook Pro 15" a while ago after using and building my own PCs for years. But I'm getting heavily into photography since retirement, and loving it (the photography as well as retirement). And thought I should switch to IOS which seems better suited to photography from what I've read. But the switch wasn't as easy as I thought. So I bought this book, the kindle edition
